- Foundation Project Management 

## Projects

**Ryddel, @Fusionwave** 

At **Fusionwave**, I developed the **Ryddel** mobile app for **Android and iOS**, enabling collaborative decision-making with social logins and custom questions.

**Ryddel web, @Fusionwave** 

At **Fusionwave**, I also developed the web-based Admin panel for the **Ryddel** App, restricting access to only the admin for system management.

**me3Mari/Construction, @fusionwave** 

A **job posting** and **tracking** app facilitating connections between employers and job seekers across industries like **construction** and development. It aims to offer deserving individuals opportunities for suitable employment.

**Planet maters, @Fusionwave** 

An application that deals with cleaning and collecting garbage to claim rewards and share achievements with friends on social media.

**myTerrace, @Fusionwave**

Leading our flagship app, I oversee a platform facilitating transactions for a wide range of offerings, from freelance work and property rentals to event tickets and more. Integrated with OpenAI for user assistance.

**Instructr, @Fusionwave**

An application that facilitates communication between learners and driving instructors, including session booking, progress tracking, chat, and payment integration

## Education

**BS(Information Technology), Universty of the Punjab** 

2019 – 2023  
Lahore, Pakistan
